## EDUCATION

### Full Stack Web Development (Full time)

Masai School, Bengaluru

October 2022 - October 2023

### Bachelor of Technology (Electrical & Electronics Engineering)

Mar Athanasius College of Engineering,

Kothamangalam

July 14 - July 18

## TECHNICAL SKILLS

Node.js | RESTful APIs | Git | JavaScript | MongoDB |

HTML5 | CSS3 | Express.js

## INTERESTS

- Football

# Abdul Haseeb T K

## Node JS Developer

### PROFESSIONAL SUMMARY

Results-driven Node.js developer with expertise in the MERN stack. Proficient in building collaborative projects and leveraging generative AI for innovative solutions. Strong technical aptitude and quick learner. Adept at developing and maintaining server-side applications with Node.js and RESTful APIs. Skilled in optimizing code, database queries, and server configurations for performance, scalability, and security. Excellent problem-solving skills and effective communication. Proactive and self-motivated individual poised to excel in dynamic software development environments.

### PROJECTS

#### 1. Chatify | |

HTML | CSS | Javascript | Node.js | Express.js | socket.io | WebRTC

- Led backend development, ensuring the application's core functionality.
- Implemented Google OAuth for streamlined user authentication.
- Enabled real-time messaging using Socket.io.
- Integrated WebRTC for video call features.
- Designed and implemented the admin dashboard for efficient system management.

#### 2. Linkup | |

React.js | Node.js | Express.js | JavaScript | MongoDB

- Implemented user authentication features including login and signup functionality.
- Developed user profiles with customizable profile pictures, cover photos, and bio sections.
- Designed and implemented user's activity feed, displaying recent posts, comments, and likes.
- Created a friend list functionality for easy navigation and networking.
- Implemented follower/following system to enhance networking capabilities.
- Designed and implemented user timelines for organized display of posts and shared content.

#### 3. Code Converter | |

React.js | ChatGPT-API | GitHub API | Node.js | Express.js

- Implemented GitHub OAuth login for secure authentication.
- Developed code conversion feature using ChatGPT-API for translation between programming languages.
- Created a built-in code editor for writing, modifying, and reviewing code.
- Implemented code debugging functionality with ChatGPT integration.
- Integrated code quality checking tools to maintain clean and error-free code.
- Developed GitHub integration for seamless code pushing to repositories.
